Subject: WIRED - Questions at conference call

Hi folks, I'm very disappointed and concerned that you would stop taking questions during the call.

I'm a reporter with WIRED and a Durango local, and I'm happy to come down to Unified Command and speak with the PIO's in person.

A followup to the question on the call from the Herald — there is no data posted on the EPA OSC site that's newer than Thursday. Do you have any data newer than that, and, if so, are you planning to share that data and if not, why not?

—

Also, when might local businesses expect to get reimbursed for their immediate financial hardship?

Please let me know when I can come down and set up a briefing in person.
